The Official Newsletter of The Davies Project

Dear Friends and Supporters,

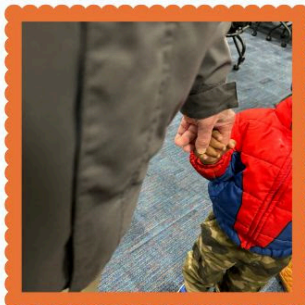

On cold and snowy days, when almost nobody wants to be outside, the volunteer drivers for The Davies Project are still out there:

- helping family after family to access health care for their child,
- driving women in need to their pre- and post-natal medical appointments and
- ensuring that new parents can spend bonding time with their hospitalized infants.

While anxiety, hatred, and aggression bubble up across the world, The Davies Project continues its quiet mission of making the world a better, more trusting, and compassionate place.

Just last week, I received the following photo of a driver and child from a clinic worker who wanted to express her thanks for The Davies Project. Mike, our driver, had taken a family for vaccinations. An especially worried child grabbed Mike's finger while awaiting his turn; Mike stayed with him for the duration. The caption accompanying this photo said:

"THIS is The Davies Project in action."

Another driver stated recently, "What wondrous things you have made. You have indeed 'changed the world' for so many... It is a pleasure to be a small cog in this magnificent wheel that YOU keep turning day in and day out."

Thank you for supporting this very effective work.

Sincerely,

Pam Miklavcic
Founder and CEO
